

Hi Phil

So sorry for the lateness of this long awaited feedback. Had trouble on line with my Mac, so thought it best to send it hard copy! So here it is.....

China had been on my wish list for many years and for one reason or another when deciding where to go for our next adventure it never seemed to make its way to the top. There was a number of reasons for this, language difficulties, not wanting to go on a tour, 'strange food' (we eat very plainly) and toilets!!

Anyway after spending a long time researching I finally came across The China Travel Company. Initially I used the very helpful and impressive website to map out a potential journey covering all the sights and places we wanted to visit. Once this was done I then looked at hotels, again using the website and other available resources. Then it was time for me to contact China Travel. I sent all

my information via postal services and it wasn't long before Phil contacted me with a suggested itinerary. This planning even started approx. 1 year prior to the dates we planned to travel! Making the best of this time I continued to contact Phil on a regular basis while our trip took shape, adding a few changes and booking shows. I booked our flights so that I could take advantage of the BAA sale and also made on-line bookings for some restaurants but all the time getting help + advice from Phil when necessary.

Finally we began our epic trip which was to last over 4 weeks. It was amazing. Everything went to plan, our guides always picked us up on time, were very knowledgeable and extremely helpful. We never felt uncomfortable or unsafe. We saw some wonderful sights that we will never forget and to top it all we were blessed with very good weather.

Would we change anything - definitely not, except of course I wish we had found The China Travel Company years ago.

The whole experience from beginning to end was incredible and we would recommend The China Travel Company to anyone whatever your requirements are when visiting China. Thank you once again for all your help, advice and patience for making this a trip to remember.

kind regards

Sue & Mark.
